# PayUmoney

# MindYourFleet Documentation

# Introduction

This guide will show you how to configure Opencart 2.3.0.2 version to use PayUmoney as your payment processor for payments through Credit Card, Debit Card, Net banking.
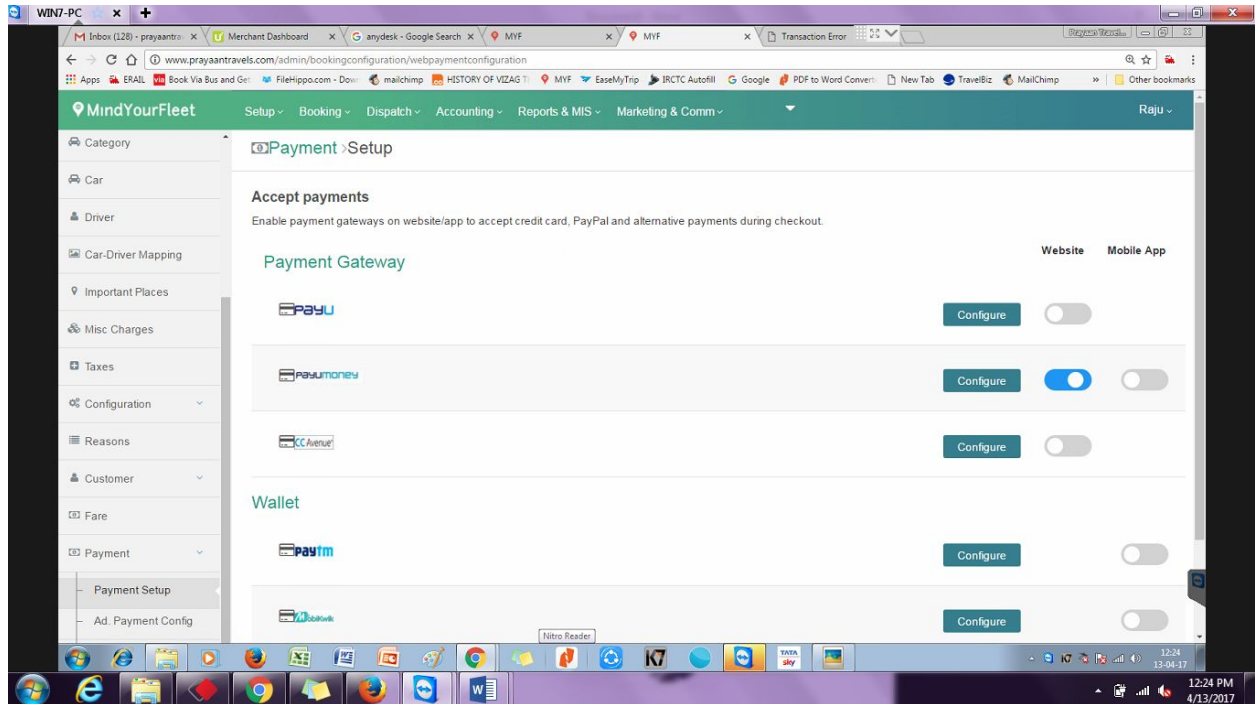

# Prerequisites
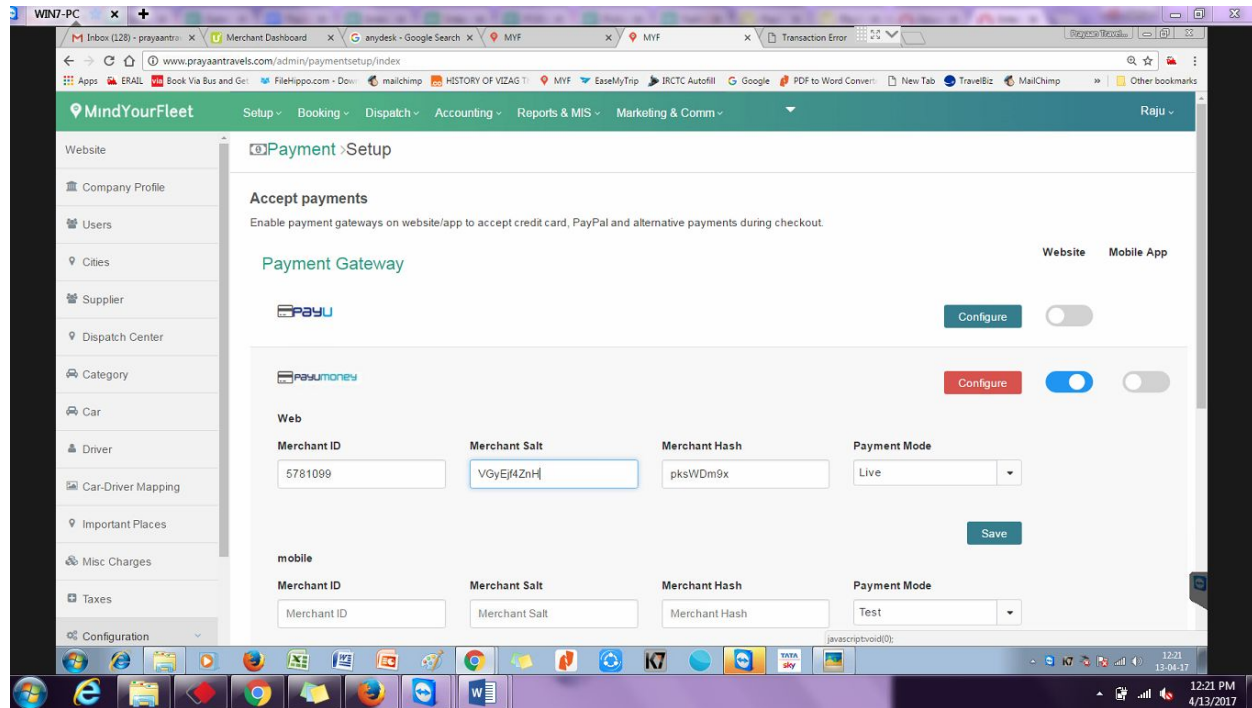

To Integrate PayUmoney payment gateway, you must :

1.   Have a merchant account with PayUmoney. If haven't already registered, please visit https://www.payumoney.com/ and then register as a merchant.

2. Know your Salt & Key. These are available on the dashboard. If you already have a PayUmoney merchant account, please login at https://www.payumoney.com/  and you will be able to retrieve your salt and key from the "Account details" tab.

# Steps to Integrate
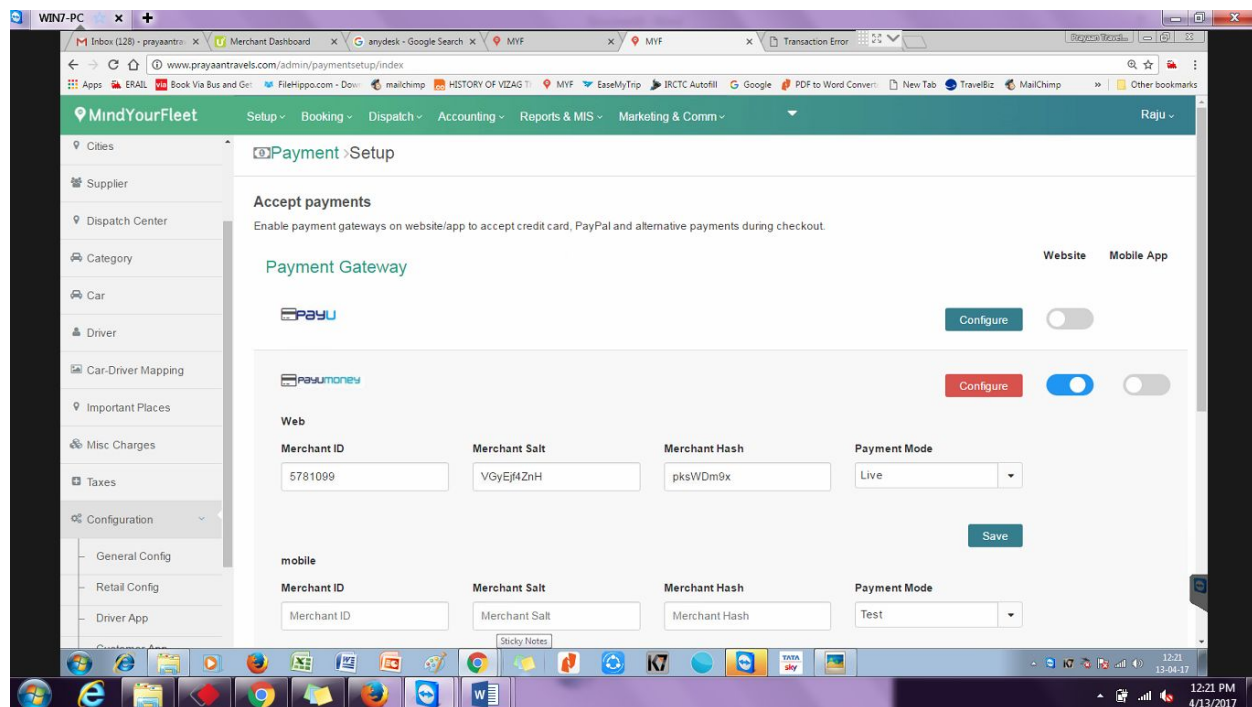

1)Select Payment option from setup after login to MindYourFleet admin Panel.

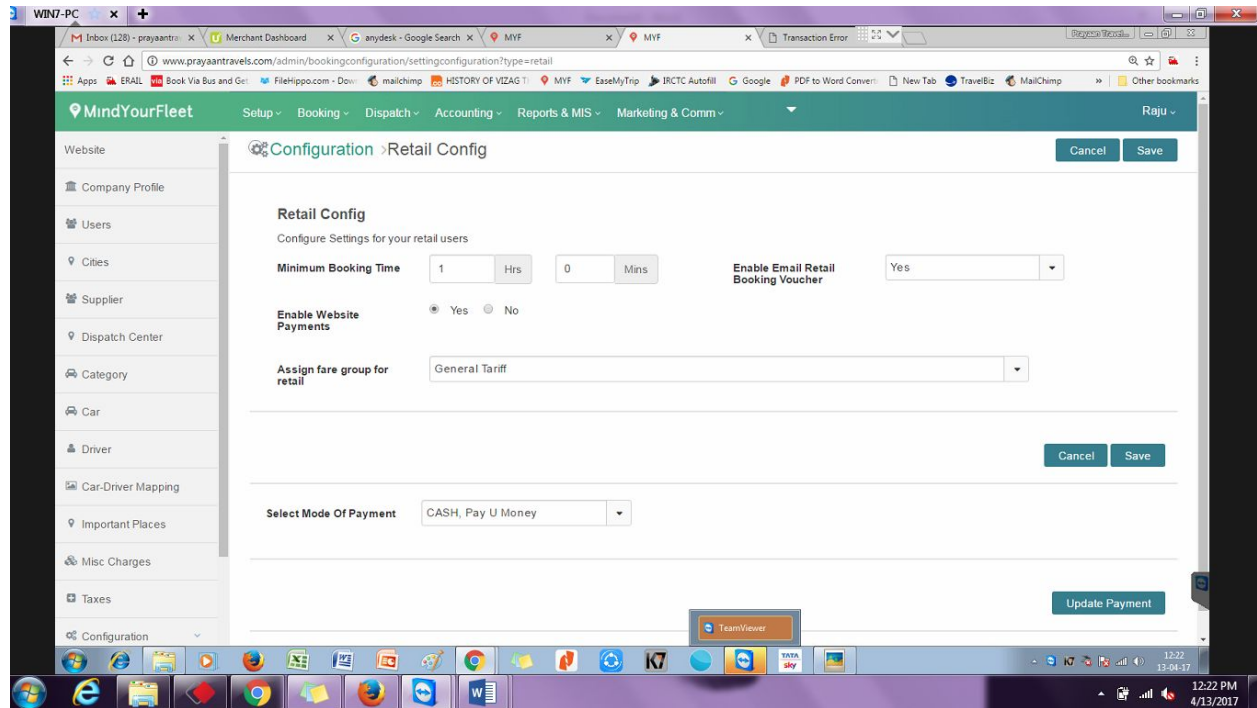

2)Use Merchant ID, Salt and key at merchant hash.
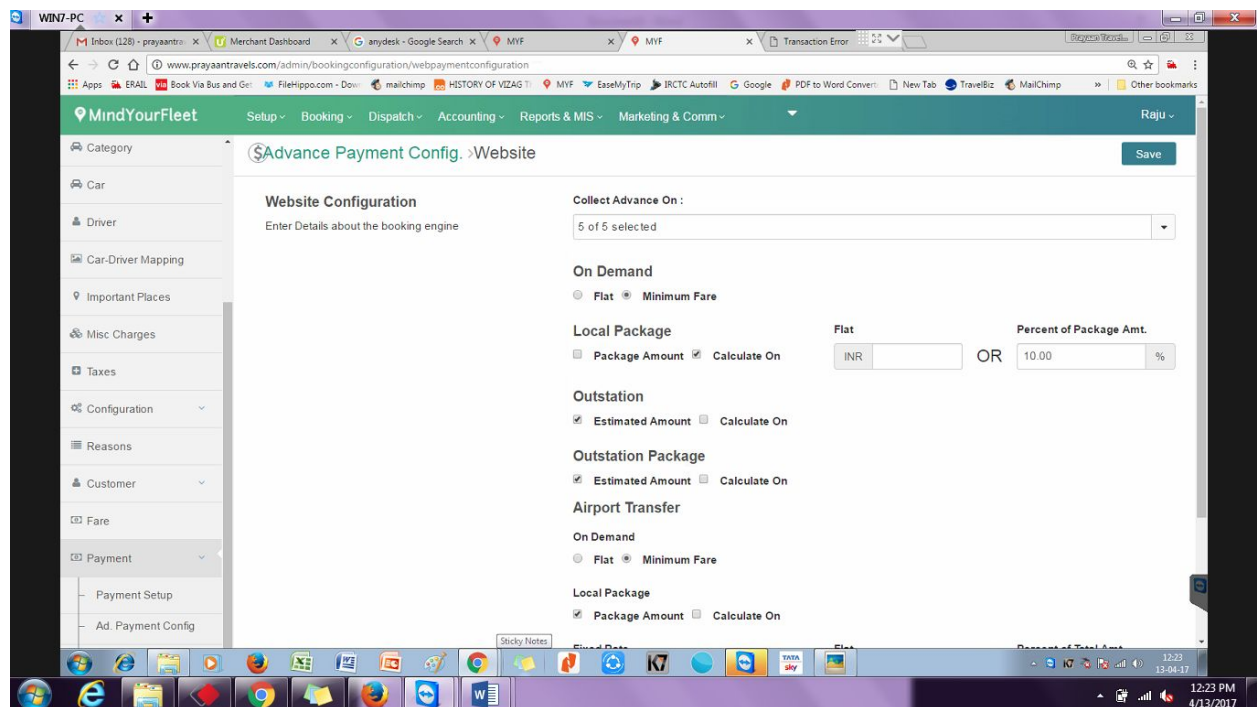

3) Make the website integration enable.

4)From left menu, go to configuration and select '**Retail Config**'.

5) In '**Select Mode of Payment**', select PayUmoney and then click '**Save**'.

6) Under **Payment** in the left menu, select '**Advance Payment Config**' and select all the options.

7) Click on '**Save**'.You are now good to collect payments using PayUmoney.

# Testing

If you want to test the payment first, you should obtain test values for "Merchant Key" and "Salt" (not production) and enable checkbox "Enable PayU Test mode)".

**Test MID:** *4934580*

**Test Key:** *rjQUPktU*

**Test Salt:** *e5ilg1jwi8*

**Test Authorization Header:** *y8tNAC1Ar0Sd8xAHGjZ817UGto5jt37zLJSX/NHK3ok=*

Below are the test card details for doing a test transaction in the testing mode.You may use the following card details for testing:

**Card Name:** Any Name

**Card Number:** 5123 4567 8901 2346 CVV: 123

**Expiry Date:** 12/2017
